April 26th, 2024

To Our Valued Residents:

Thank you for another incredible season, Here we are again it's summer at Sundance 1, 2 3 and The Buttes @ Sundance. The Management teams wish you a safe summer whether you're traveling or remaining behind to endure the heat of Arizona.

As we turn toward summer operations seasonal workers are taking well deserved breaks/ vacations, seasonal monitors travel, relax, and regroup, unfortunately this leaves the park with minimal support staff to provide cleaning, maintenance and the abundant activities you enjoy during the peak season. To preserve and maintain costs, rooms are closed and air conditioning is turned off, pool/park furniture is stored away to preserve them from the heat and minimize replacement costs. Although we are more than willing to allow use of park furniture for special events, we do not retain set-up staff during the summer months and volunteers would need to set-up and put away anything they wish to use, contacting Management beforehand for access to stored items.

We are very fortunate to be able to offer limited activities and events during the summer with the help of Joyce Jones, who manages the summer activities and Lisa Bok at the Buttes for making space available at the Buttes Clubhouse. Relying on volunteers for activities/events is as crucial during the summer as it is during the peak season. If you are interested in volunteering for the summer to assist with events/activities or have a talent you would like to share please reach out.

The residents whether living here full-time or just for the season are what make this park beautiful and fun to stay in. Communication with the park Managers and our summer activity director is necessary to ensure everyone's satisfaction and fun during this period. The management team has an open door policy and would

greatly appreciate meeting with you in person during office hours, via telephone or email, rather than through social media or public forums as Management will not engage in these on-line conversations.

Let's all do our part to keep our home safe, clean, and fun, be respectful of staff that remain on-site to meet your needs, and those few workers having to work outside during the summer heat. For those of you remaining through the summer enjoy the benefits of fewer crowds and the opportunity to enhance interactions with your neighbors.

Have a blessed summer, wherever you may spend it, see you in the fall.

Best regards,

Your friendly Management Team
